

# Texas Triple Shot

**Texas triple** (90m track)

Start with an arrow nocked.  
3 point bonus for hitting all 3 targets

## General Rules – Set-up, Time Allowed, & Scoring

- This course is essentially an alternative target set-up to the Korean 3-Shot, therefore all rules pertaining to the Korean 3-Shot apply.
- The course shall be 90m long, with targets placed 15m, 45m and 75m along track.
- The targets shall be a round target with a diameter of 80cm, divided into 5 concentric circular zones (standard FITA 80cm target faces recommended). Targets shall score from inner to outer: 5pts, 4pts, 3pts, 2pts and 1pt.
- The distances of the targets from the edge of the track are 9m, 7m and 15m
- The target center shall be 90cm above the level of the track and the targets shall be positioned at an angle that the face is perpendicular to an archer in the saddle.
- Riders may begin run with an arrow nocked, but must cross the starting line before starting to shoot. Remaining arrows must be individually drawn from the quiver.
- All runs must be completed at canter or gallop.
- The time allowed for each run is 14s. Points shall be awarded or deducted for completing a run in less or more than this time. One point shall be awarded or deducted for each second, calculated to two decimal places.
- The maximum number of points that may be awarded for speed is 5 (for finishing in 9s or less). No further points shall be awarded for runs finished in under 9s.
- Points are only awarded for time if the rider hits at least one target. If no targets are hit then the run scores zero, regardless of time taken.
- “Hits” means hits within the scoring zones of the target face. Arrows that hit the target but do not scores points are not “hits” for the purpose of these rules.
